Annual DGP conference 2019

Plant Nutrition meets social expectations of sustainable plant production

Social expectations concerning agricultural and horticultural plant production are subject to constant change. Current priorities include environmental friendliness, resilience to the adverse impacts of natural and man-made stresses, and healthiness of food. At this year's Annual Meeting of the German Society of Plant nutrition, which will take place from

September 25 – 27 in Berlin,

both oral and poster presentations are welcome which show findings of Plant Nutrition in the research fields of

- environmental friendly plant nutrition (e.g., nutrient efficiencies, rhizosphere processes, symbioses, fertilizer and fertilization technology, etc.)
- yield stability (e.g., resilience to nutrient deficiencies, salinity, acidity, climate change, etc.)
- healthiness of food (e.g., biofortification, toxic minerals, bioactive compounds, etc.)

In all these fields, we expect a wide range of contributions, which cover the diversity of Plant Nutrition's experimental approaches to study processes from the subcellular to the field level.

Key note speakers:

Tim S George, James Hutton Institute, Dundee, Scotland

Céline Masclaux-Daubresse, Institut Jean-Pierre Bourgin, Versailles, France

Knut Ehlers, Umweltbundesamt, Dessau, Germany

Matthew Gilliham, School of Agriculture, Food and Wine, University Adelaide, Australia.

Devrim Coskun, Département de Phytologie, University Laval, Quebec, Canada

Janneke Balk, John Innes Centre, Norwich, England

Ismail Cakmak, Sabanci University, Istanbul, Turkey

Suzan Fiack, Bundesinstitut für Risikobewertung, Berlin, Germany

Submission procedure:

The conference language is English. Abstracts must be submitted by July 31, 2019, using the online form at <https://www.igzev.de/dgp-conference-2019/>. A panel of referees will decide on acceptance of an abstract as a poster or an oral contribution. Acceptance of abstracts will be sent by August 15, 2019.

The Berlin-Marathon will take place from September 28-29. Therefore, it is necessary to **book hotel rooms as early as possible** (see appendix below). The conference venue will be Invalidenstraße 42, 10115 Berlin. The lecture program will start on September 25 at 13:00 h, and ends on September 27 at 13:00 h. On Friday afternoon, an excursion will be offered to the Leibniz Institut für Gemüse- und Zierpflanzenbau in Großbeeren (ending at 17.00).

We are looking forward to your contributions.

Best regards,

Christof Engels

Eckhard George

Christoph-Martin Geilfus
